- **Haynes Flute #43995**, Call Jim Gregory, 415-332-2555, \$500 reward
- On Sunday February 16, 2014, a **tuba** was stolen out of a car in Oakland, California. it is a **Mirafone 191-4U BBb. Serial number: 9007024**. It was in a **black Meinl Weston top loading gig bag**. Early in it's life, this instrument sustained some bell damage, which is evident in the stretch marks in the lacquer. In the gig bag was a Clements 'Ensemble' mouthpiece. Keep your eyes out for it. A report was filed with the Oakland police. Call them if you have any idea where this instrument is. The theft occurred at a church on Park Avenue between 3:30 and 5:00 pm. (not my horn)
- **STOLEN: Buffet (Prestige edition) silver plated B flat wooden clarinet** – Saturday, Nov. 29th, 2014 at ~6AM my **Buffet (Prestige edition) silver plated B flat wooden clarinet** was stolen during a burglary that I was victim of at 188 Marlow Drive, Oakland, CA. The burglary was reported to the Oakland Police Dept. about 8AM (after I returned home after being gone ~2 hours). I have the serial number for the clarinet. The **clarinet model number is (1131 L-2; BC6721 = Prestige w/ the axillary E flat lever)**.

Description: Black wooden clarinet has an axillary E flat lever (on the right side) which is very unique. Per Rudy Tapiro....this type of clarinet is rarely found in the US. I purchased it when I was stationed in Sicily in the US Navy. My music teacher selected it for me and I am very sad to have had it stolen. A&G Music in Oakland has been very helpful in identifying the exact type etc. once I was able to find the serial numbers. I HAVE THE SERIAL NUMBER to identify it. The gold emboss on the horn isn't stamped in deeply and in some places has blended into the wood.

Case: Brown Leather w/ mauve velvet lining (a standard case)

Contents: mouth piece had a thin plastic teeth guard on it, black leather ligature (that in on the mouth piece), mouth piece cover has some markings on it from being chewed on when my Maltese would steal it out of the case when I would practice, reeds are numbered w/ a date, electronic Metronome; brown pencil case w/ reeds, case key, blue buffing rag; tacked into the mauve velvet lining of the clarinet case lining was a crucifix lapel pin, red/white shield lapel pin, 1999 Japan Olympics lapel pin, and a US Navy Musician Mate silver harp collar device. (in case any of these items are still in the case...and can help i.d. it).

Several items were stolen but the one I care about the most is my clarinet. Thank you for broadcasting this to anyone you know. Call or text me at **510-910-6694** (anytime) if you learn of the whereabouts of my instrument. anita@anitabehealthy.com — Be Healthy, Anita M Kobuszewski, MS, RD

BEWARE: STOLEN HORNS - SELMER mk VI ALTO, BUFFET PRO Bb, TENOR & FLUTE

*******BUYERS BEWARE *******

Between Saturday 3/28/2015 night, and Monday 3/30/2015 at 1pm ALL OF MY INSTRUMENTS WERE ****STOLEN**** FROM MY PRACTICE ROOM IN THE MUSIC BUILDING AT MILLS COLLEGE.

I have filed an online report and called OPD, but they probably will show up to investigate when I am crowned queen of England. In the meanwhile I'm reaching out to the community for help in locating my horns.

These are of deep personal value to me, especially the alto and the clarinet; they were both my father's. The alto is the very first woodwind instrument I ever played as a child and has been with me until now. It would mean the world to me to get them back.

About the stolen horns

Selmer Mark VI Alto Saxophone SERIAL # M.192685 - later model, dent on bottom of bell, brass/golden color, 60-70% lacquer, bad solder job on low B/Bflat key guards, palm keys have almost all of the lacquer eroded from use, greenish corrosion forming near top hand tone holes, Meyer 5M mouthpiece, navy blue Protec case with Hercules stand in the pocket, many scores folded into the narrow pocket.

Buffet-Crampon Custom KO B-flat Clarinet SERIAL # 100042 - with KO engraving below Buffet-Crampon logos (in the place where you would see R13 or other model indication), rosewood, keys are tarnished silver or nickel, one Selmer barrel for an A clarinet is in the case, reeds on a sheet of glass, custom mouthpiece, Bonade ligature, original case-- beaten up, wood shows on corners, old schedules from the 70s Scotch taped to the front written on a typewriter.

Yamaha Tenor Saxophone YTS 475 SERIAL # D09178 - newer, shiny brass, intermediate model, made in China, Yanigasawa hard rubber mouthpiece, Berg Larsen metal mouthpiece, two cheap mouthpieces, matte grey plastic case with black trim and black interior

Gemeinhardt M2 Flute - Closed hole, offset G, C-Foot, solid silver, made in Elkhart, IN, becoming slightly tarnished from use, possible foundation/makeup smudged on lip rest, case says BARUCH COLLEGE on it.

Please be on the lookout and share this information if you can. Contact Kim at 860-532-0345

Julia's **Flute** is a **Yamaha 461**, silver colored with gold/brass colored mouth piece. **Serial # 666498P**. It was purchased from Steve Deutsch in 2012 (don't know if year is identifiable on a flute). It was in a hard case (w/ Cal Band day sticker and a flute bumper sticker on it) and also a soft carry case with strap, both black.

I've attached a flier that we've made. ([Download flier >](#)) I have another picture of the flute assembled and sitting on the dining room table if that's any help.

If found, please contact Katherine Mattson 510-282-8142

The **Concertina** was a **Wheatstone Anglo concertina no: 30439** and the **flute** was an **early Grinter circa 2000**. They were in a unique leather case that also has Jack's Great Grand Uncle's safety deposit box from the 1900s as a flute case.

Muramatsu flute stolen in Alameda California (SN EX42474): My daughter, Laura, accidentally left it in the restroom in the **Alameda Main Library**, and it was gone when she returned about 30 minutes later to retrieve it. She also checked with the library's lost and found, and we have filed a police report for the loss.

Laura has been playing this flute daily, including in the Alameda high school orchestra and in their drama department pit band. She loves this flute like it is a part of herself, and is devastated.

Thank you for any assistance you can provide in resolving this unfortunate incident. Phil Ballou, Alameda, CA, **510-338-8793** (mobile and text), December 2015

Here's a list of the (musical) items stolen out of my trunk on 7/12, approx. 6:30 pm near 26 7th St., San Francisco:

- Yamaha 481H open hole flute, serial #303202 soft & hard case
- Yamaha 423E (61 key) keyboard, torn on right side, they didn't take case, cords or stand
- Roland KC-150 Keyboard Amp, identifiable kink in cord and treble & bass knobs are broken off (metal only)
- Sennheiser vocal mic

Police Report #170567013

On July 12, I headed to ballet class en route to my gig in San Francisco (as I typically do), and parked where I've parked for 3 + years. In one hour, my window was smashed and trunk lever pulled, and everything (nothing was visible- it was in the trunk because I was on the way to a gig) was taken... my keyboard, amp, mic, pro Yamaha flute I'd had for 20 years, a few dozen of my own CDs, my hand written compositions & arrangements, my journal, my prescription eyeglasses, my gig clothes (I don't even own many clothes, and some of this stuff was only in the trunk because I had recently moved out of a place and hadn't yet moved it inside).

I am heartbroken. I would prefer my car be stolen over my flute and music. My flute (that I just had Steve Deustch work on), isn't even made anymore.
